<b>Description</b> [#22999] did some changes in the Factory to be compatible w/ any 3.4 Frontend. Those changes were requested by OSG and should be only in the 3.4 series (at least any workaround to be compatible w/ buggy behavior). This ticket is to revert them. This should be started after the 3.4.6 code (and [#22999] has been merged into master (to avoid conflicts)
